The festive grotto bus can be available for the following activities:

- **Deliver Christmas gifts to office workers at their place of work**
- **The bus can be hired and branded by companies for their Christmas activity**

The bus can be themed for adults & children, we intend to have a PA system to play Christmas songs, Plasma screens to show festive films, in short we want to produce the ultimate Christmas vehicle. We will go as far as our clients want, we have already had requests for snow machines, real reindeer and fake snowballs!
